Purpose: Goal of this dashboard is to provide overall business metrics as well as provide a launching point for users to dig deeper into the metrics

KPI's measured: Total demand orders/units/amount, Aged Open Orders & amount older

than 2 days, Total cancelled orders/amount, Backorder units/amount

Demand, Shipped, Cancelled orders/units trends by day/week/month

Order brokering trends for store vs DC

Top Pick decline Reasons & Cancel Reasons

Shipped Orders by Carrier Service

Top 5 SKUs in Shipped Units

Store Activity by Order Status

- D01 Order Analysis dashboard
- D03 Cancellation dashboard
- D04 Backorder Analysis dashboard
- D03 Store Fulfillment KPI dashboard

KPI's measured: New orders/units, Orders/units in Buyer's Remorse, Released orders, Fulfilled orders/units, Cancelled orders/units.

Order trends for yesterday/today/past 30 mins for in New, Released, Fulfilled & Cancelled statuses

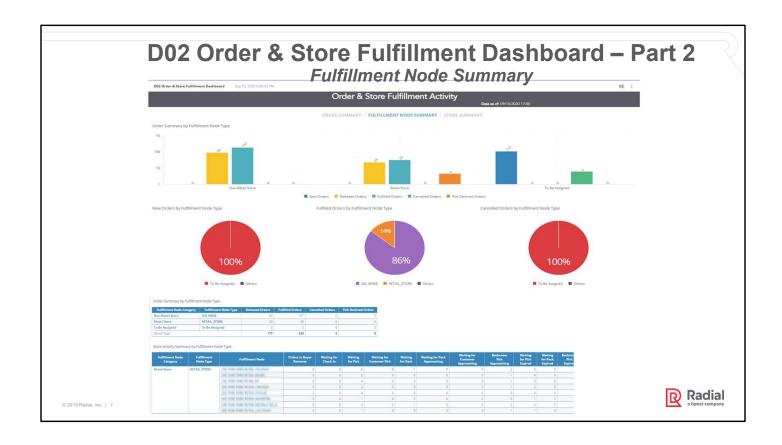

Order Summary by Fulfillment Node Type, New/Fulfilled/Cancelled orders by Fulfillment Node type

Store Activity Summary by Fulfillment Node Type

Released Orders, Fulfilled Orders with respect to Ship To Home, Ship To Store, In Store Pickup

Retail Store Activity with respect to Ship To Home, Ship To Store, In Store Pickup Retail Store Order Summary & Activity by Fulfillment Node Type & Fulfillment type Order Summary & Activity by Store

- · New Order Details dashboard
- triggers Released Order Details dashboard
- Fulfilled Order Details dashboard
- Cancelled Order Details dashboard

KPI's measured: New orders/units, Orders/units in Buyer's Remorse, Released orders, Fulfilled orders/units, Cancelled orders/units.

Order trends for yesterday/today/past 30 mins for in New, Released, Fulfilled & Cancelled statuses

Order Summary by Fulfillment Node Type, New/Fulfilled/Cancelled orders by Fulfillment Node type

Store Activity Summary by Fulfillment Node Type

Released Orders, Fulfilled Orders with respect to Ship To Home, Ship To Store, In Store Pickup

Retail Store Activity with respect to Ship To Home, Ship To Store, In Store Pickup Retail Store Order Summary & Activity by Fulfillment Node Type & Fulfillment type Order Summary & Activity by Store

- · New Order Details dashboard
- triggers Released Order Details dashboard
- Fulfilled Order Details dashboard
- · Cancelled Order Details dashboard

KPI's measured: New orders/units, Orders/units in Buyer's Remorse, Released orders, Fulfilled orders/units, Cancelled orders/units.

Order trends for yesterday/today/past 30 mins for in New, Released, Fulfilled & Cancelled statuses

Order Summary by Fulfillment Node Type, New/Fulfilled/Cancelled orders by Fulfillment Node type

Store Activity Summary by Fulfillment Node Type

Released Orders, Fulfilled Orders with respect to Ship To Home, Ship To Store, In Store Pickup

Retail Store Activity with respect to Ship To Home, Ship To Store, In Store Pickup Retail Store Order Summary & Activity by Fulfillment Node Type & Fulfillment type Order Summary & Activity by Store

- · New Order Details dashboard

KPI's measured: New orders/units, Orders/units in Buyer's Remorse, Released orders, Fulfilled orders/units, Cancelled orders/units.

Order trends for yesterday/today/past 30 mins for in New, Released, Fulfilled & Cancelled statuses

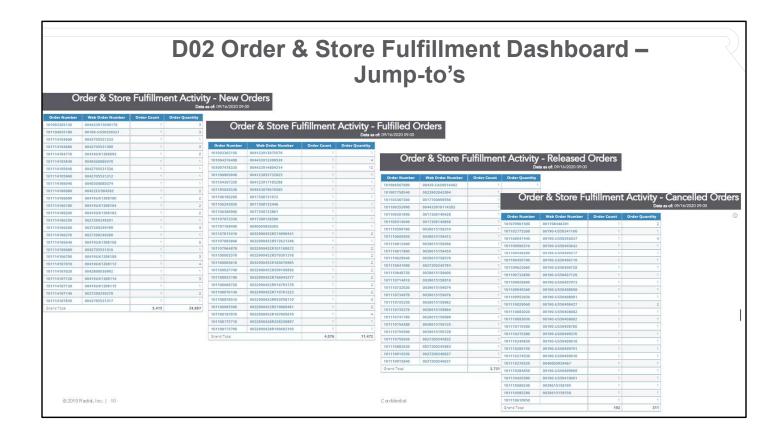

Order Summary by Fulfillment Node Type, New/Fulfilled/Cancelled orders by Fulfillment Node type

Store Activity Summary by Fulfillment Node Type

Released Orders, Fulfilled Orders with respect to Ship To Home, Ship To Store, In Store Pickup

Retail Store Activity with respect to Ship To Home, Ship To Store, In Store Pickup Retail Store Order Summary & Activity by Fulfillment Node Type & Fulfillment type Order Summary & Activity by Store

- · New Order Details dashboard
- triggers Released Order Details dashboard
- · Fulfilled Order Details dashboard
- · Cancelled Order Details dashboard

Purpose: Purpose of this dashboard is to provide a snapshot of activity across all orders within the selection criteria for the selected date range

KPI's measured: Show Demand orders/units, Shipments orders/units, Cancelled orders/units, Returns orders/units

Show Total Amounts & Average amounts for orders demanded, shipped, cancelled & returned

Show Units & Order trends across demand, shipments, cancellations & returns Breakdown of demand & shipped orders based on ordering systems

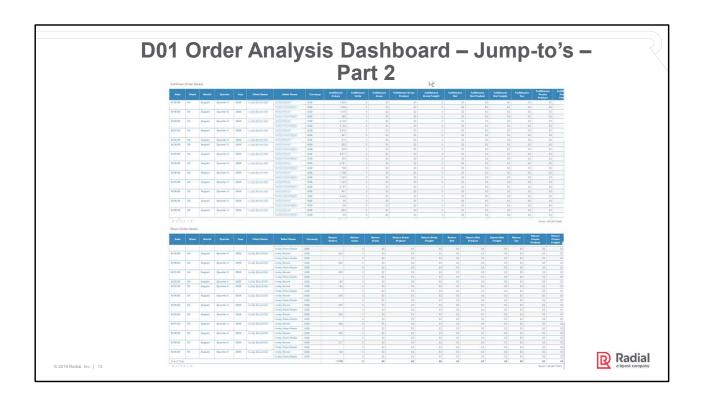

- D01 Order Analysis Summary Demand dashboard
- D01 Order Analysis Summary Fulfillment dashboard
- D01 Order Analysis Summary Cancelled dashboard
- D01 Order Analysis Summary Returned dashboard

Purpose: This dashboard shows a summary of all demand, fulfillment, cancel, and return activity for the specified date range.

KPI's measured: Show Order Summary by Currency, detailed demand order summary, detailed fulfillment order summary, detailed returned order summary, detailed cancelled order summary

- Record Type (C = Cancelled, D = Demand, F = Fulfilled/shipped, R = Returned)
- Date range of activity
- Client Name
- Seller Name
- Store Name
- Ordering System

Purpose: This dashboard shows a summary of all demand, fulfillment, cancel, and return activity for the specified date range.

KPI's measured: Show Order Summary by Currency, detailed demand order summary, detailed fulfillment order summary, detailed returned order summary, detailed cancelled order summary

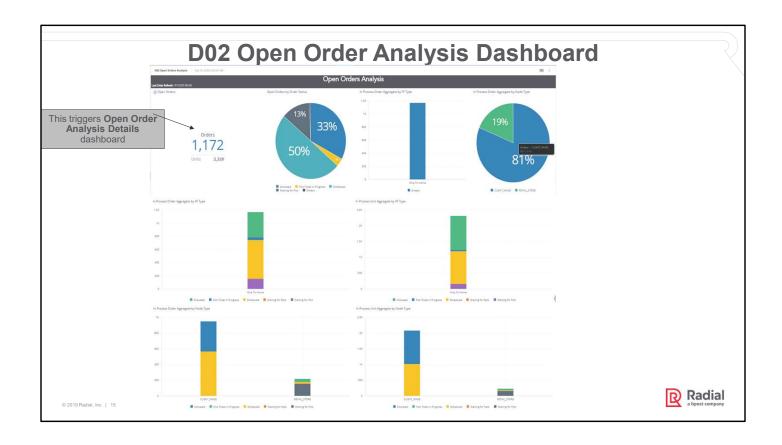

- Record Type (C = Cancelled, D = Demand, F = Fulfilled/shipped, R = Returned)
- Date range of activity
- Client Name
- Seller Name
- Store Name
- Ordering System

Purpose: This dashboard provides details for cancelled order line items and the corresponding reasons for the cancellation. It includes cancellations made by the customer as well as cancellations due to fraud

- Record Type
- Cancellation Date
- Client Name
- Seller Name
- Store Name

Purpose: This dashboard details the orders that are currently in a back-ordered status **KPI's measured:** Backordered Orders/Units/Amount; Backordered Trend, Top 10 backordered SKUs

Critical attributes on orders that are backordered

- Activity Date
- Client Name
- Seller Name
- Store Name

Purpose: This dashboard is used to analyze tender amounts, orders, customers collected across a given date or date range.

KPI's measured: Invoiced Order count by Tender Type, Tender Amount by Tender Type, # of customers by Tender Type

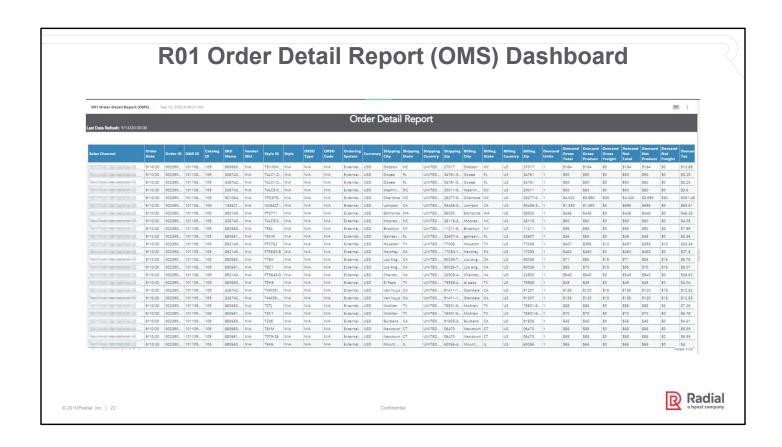

- Invoice Date
- Client Name
- Seller Name

Purpose: This dashboard is used to report on price adjustments made to orders in a given date range. Price adjustments include customer service adjustments, discounts and promotions applied to the order.

KPI's measured: Critical price adjustments on order lines including reason code.

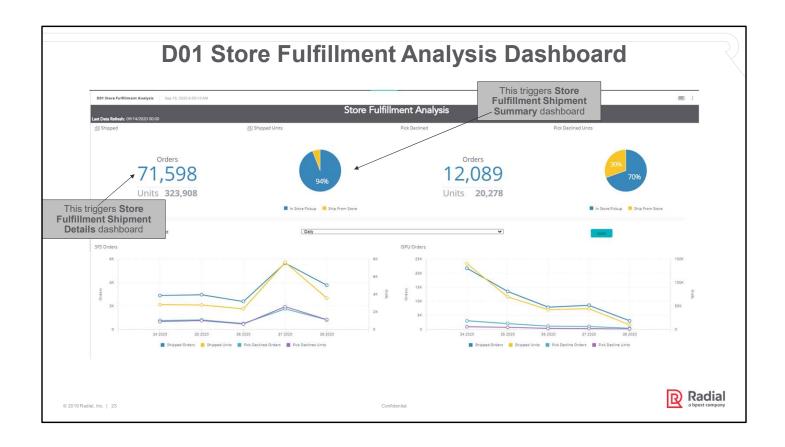

- Price Adjustment Date
- Client Name
- Seller Name

Purpose: Goal of this dashboard is to provide order details of what being received in the Radial Order Management (ROM). This dashboard can be used to research the order activity for a specific SKU or Order ID.

KPI's measured: Show critical attributes on individual order lines **Filters on this dashboard:**

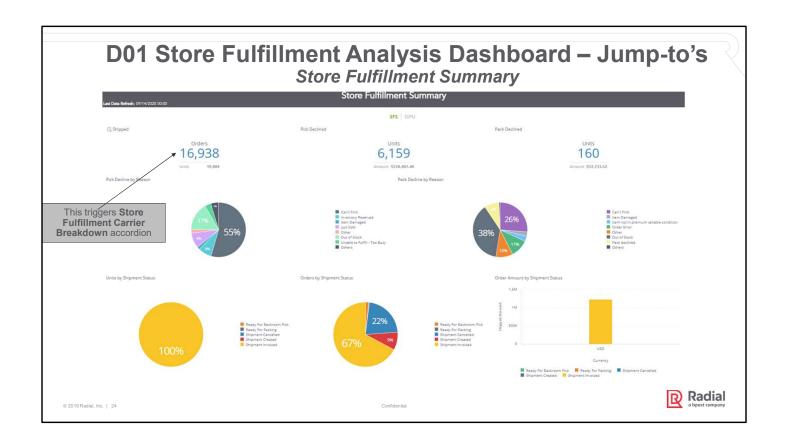

- Order date
- Client Name
- Seller Name
- Facility Name
- Order ID
- OMS Order ID
- SKU Name

Purpose: The goal of this dashboard is to provide high level view of Store Fulfillment business for the Radial partner. Users can drill in multiple levels to see the entire order line item fulfillment life cycle as well as view data by different Fulfillment Types (Ship From Store – SFS vs In-Store Pickup - ISPU)

KPI's measured: Shipped orders/units, Shipped units as a share of SFS vs ISPU; Pick declined orders/units, Pick declined units as share of SFS vs ISPU

- Store Fulfillment Shipment Summary dashboard
- Store Fulfillment Shipment Details dashboard

Purpose: Goal of this dashboard is to further allow users to drill into the metrics for Ship From Store (SFS) vs In-Store Pickup (ISPU)

KPI's measured:

Ship-From-Store tab:

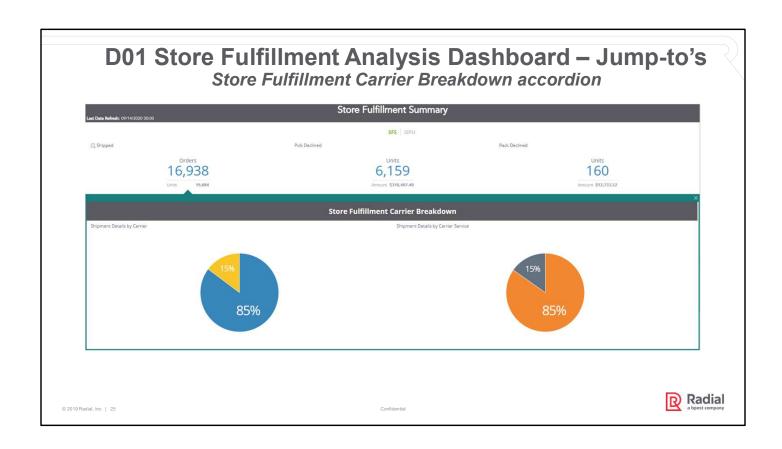

- Show Shipped orders/units, Pick Declined units/amounts, Pack Declined units/amounts
- Pick & Pack declines by reason, Units & Orders by Shipment Status and Order Amounts by Shipment Status

In-Store Pickup tab:

- Customer Picked Orders & Units, Pick Declined units/amounts, Customer Pickup Declined units/amounts
- Units Pick Decline by Reason, Units customer pickup declined by reason
- Units & Orders by Shipment Status and Order Amounts by Shipment Status

Accordion Dashboards available from this dashboard:

Store Fulfillment Carrier Breakdown accordion

Purpose: Goal of this accordion* is to provide quick breakdown of Store fulfilled orders by Carrier & Carrier Service

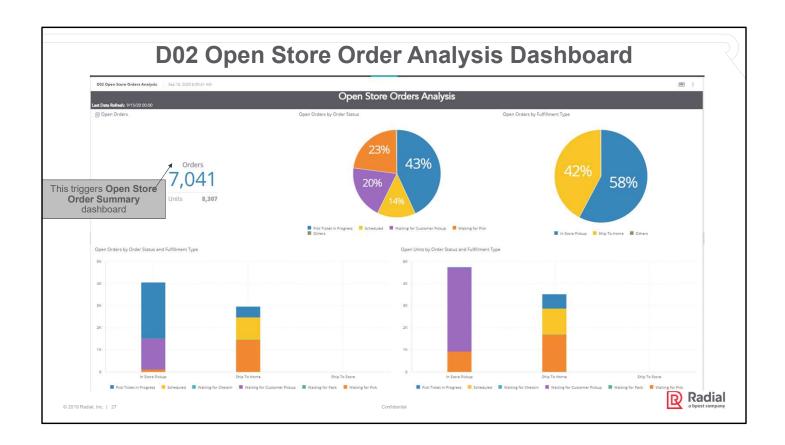

KPI's measured: Shipment Details by Carrier & Carrier Service

* Only available in SFS tab of Store Fulfillment Summary dashboard

DO1 Store Fulfillment Analysis Dashboard — Jump-to's Store Fulfillment Shipment Details Store Fulfillment Shipment Details Store Fulfillment Shipment Details Store Fulfillment Shipment Details The Store

Purpose: This dashboard provides order line details of store fulfilled order **KPI's measured:** Critical attributes on an order that has been fulfilled by a store **Filters available on this dashboard:**

- Shipped Date
- Client Name
- Seller Name
- Fulfillment Node

Purpose: Goal of this dashboard is to provide high level view of all store orders that haven't yet been completed (i.e. shipped or customer picked)

KPI's measured: Show open order/unit count, Open Orders by Order Status, Open Orders by Fulfillment Type

Further breakdown Open Orders and units by Order Status and Fulfillment Type **Jump-to Dashboards available from this dashboard:**

Purpose: Goal of this dashboard is to provide summarized view of all the orders that are open & not yet completed (i.e. shipped or customer picked).

KPI's measured: Orders & Units summarized based on different order statuses **Filters available on this dashboard:**

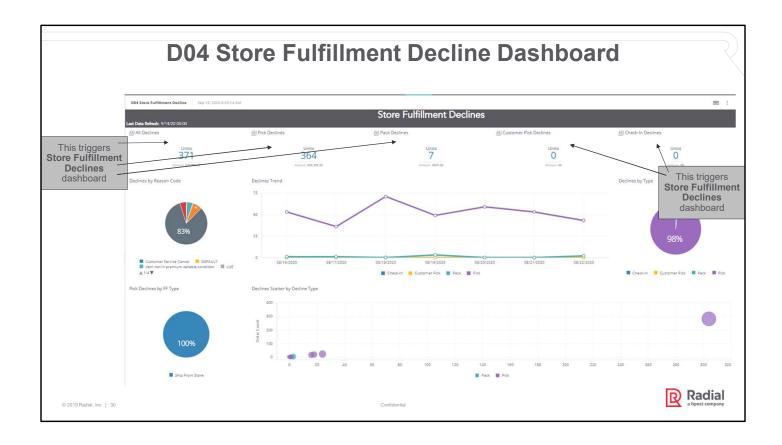

- Client Name
- Seller Name
- Fulfillment Type

Purpose: Goal of this dashboard is to show how client's individual stores are performing by measuring them on activity rate and fulfillment speed

KPI's measured: Show Store count by Activity rate, Shipments by Fulfillment Speed, Shipments by Order Status

- Activity Date
- Client Name
- · Seller Name
- Store Name

Purpose: Goal of this dashboard is to provide high level view of different categories of declines & their impact to the business

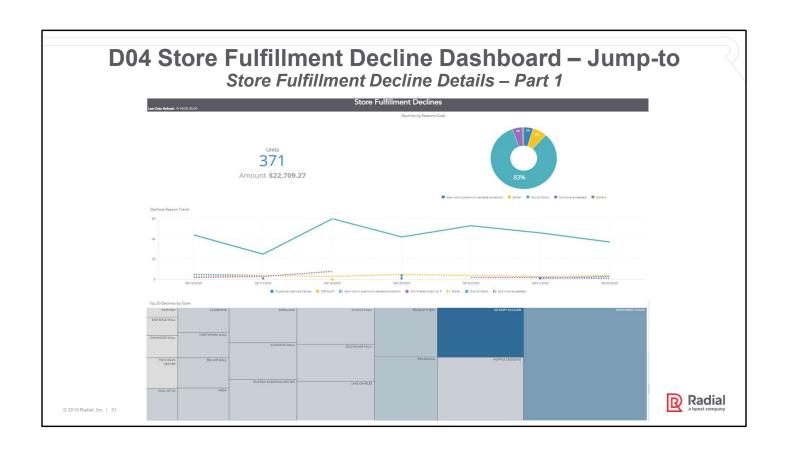

KPI's measured: All declines units & amount; Pick, Pack, Customer Pickup, Check-In decline units & amount

Declines by reason (selectable by decline type), Declines by Fulfillment Type Pick, Pack, Customer Pick, Check-In Decline unit trends

Scatter plot for Declines Units by decline types (size depends on the declined amount)

Jump-to Dashboards available from this dashboard:

· Store Fulfillment Decline Details dashboard

Purpose: Goal of this dashboard is to provide further insights into the declines that happen in the stores and DC

KPI's measured: Decline unit count & amount, Declines by Reasons

Decline reason trend

Heat map of the top 20 declines by Store (Decline Amount determines the area, Decline Unit count determines the shading)

Critical attributes of individual order line where some type of decline occurred

- Decline type
- Activity Date
- Client Name
- · Seller Name
- Store Name

Purpose: Goal of this dashboard is to provide further insights into the declines that happen in the stores and DC

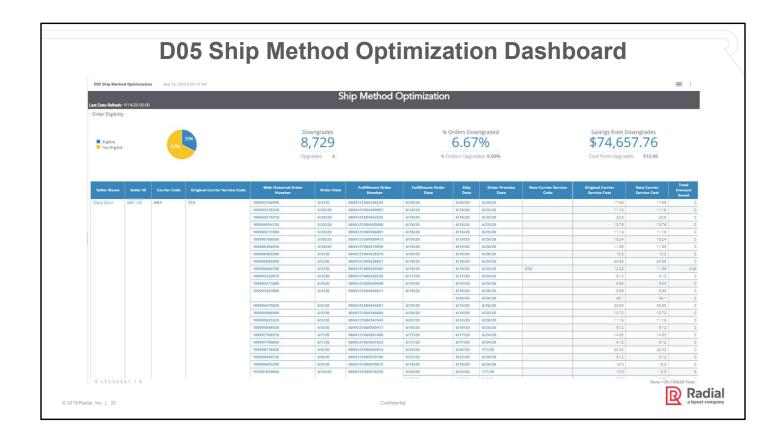

KPI's measured: Decline unit count & amount, Declines by Reasons

Decline reason trend

Heat map of the top 20 declines by Store (Decline Amount determines the area, Decline Unit count determines the shading)

Critical attributes of individual order line where some type of decline occurred

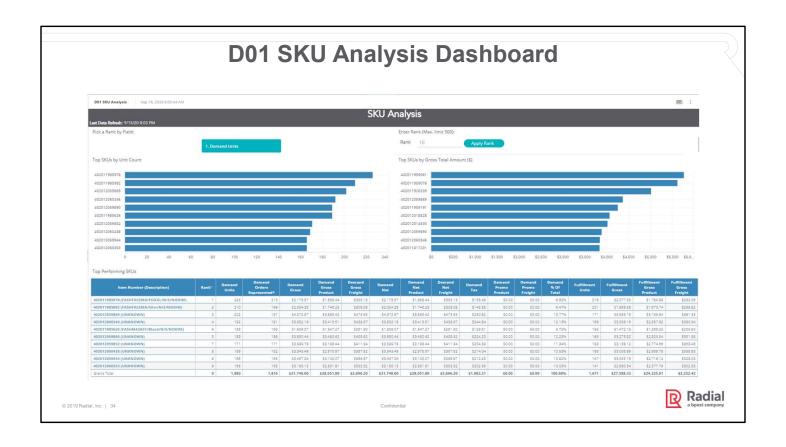

- Decline type
- Activity Date
- Client Name
- Seller Name
- Store Name

Purpose: Goal of this dashboard is to provide insight into the impact of using ship method optimization functionality in Radial Order Management

KPI's measured: Share of eligible/ineligible orders, Downgrade/Upgrade counts, %Orders downgraded, %Orders upgraded, Savings from downgrades, Cost from upgrades Critical attributes of the orders that were upgraded or downgraded

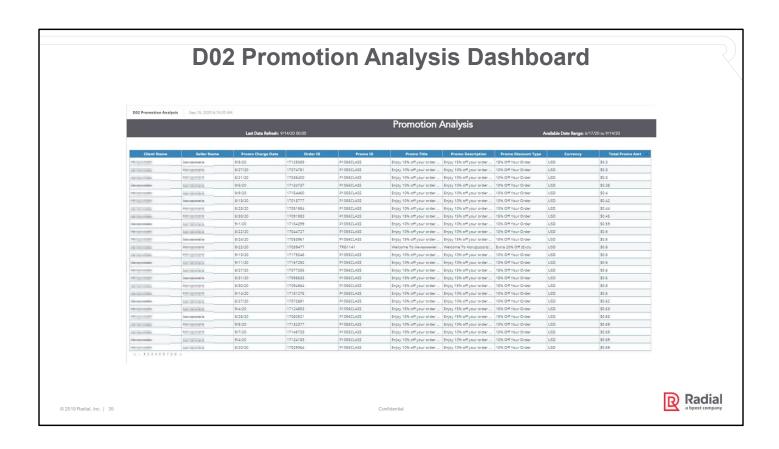

- Shipped Date
- Client Name
- Seller Name

Purpose: Goal of this dashboard has been to provide insights into top performing SKUs for Radial partners. Users will have options to choose between Demand Units, Fulfilled Units, Cancel Units & Return units to rank the SKUs

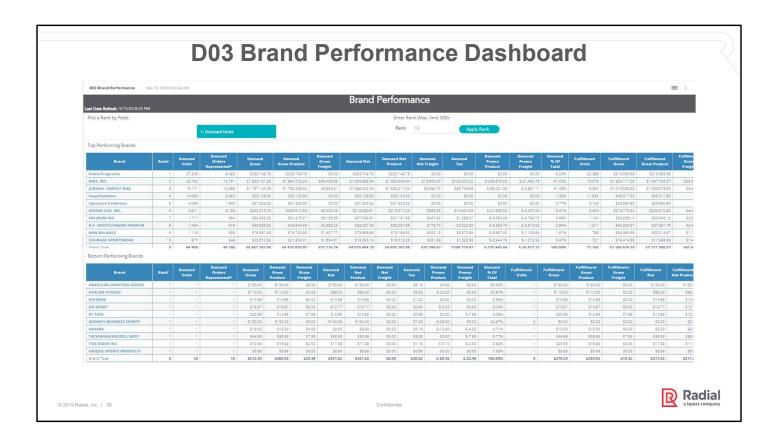

KPI's measured: Top SKUs by unit count, Top SKUs by Gross Total amount Show relevant financial details of top SKUs

- Order Date
- Client Name
- Seller Name
- Currency

Purpose: Goal of this dashboard is to provide total dollar amounts associated with promotion IDs by individual orders for a selected date range.

- Date Range
- Client Name
- Seller Name

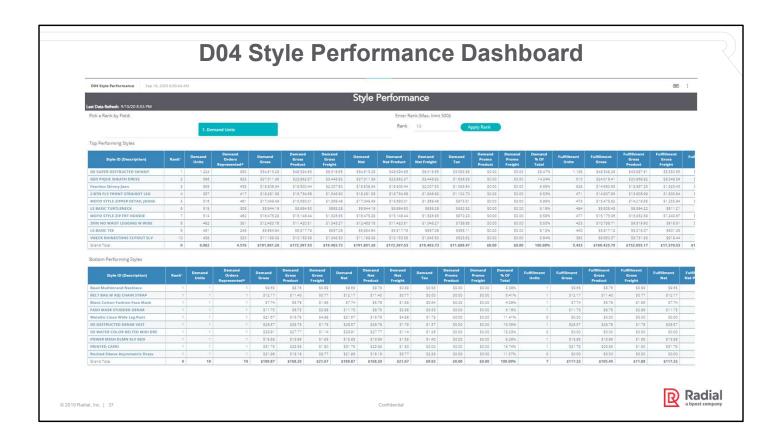

Purpose: Goal of this dashboard has been to provide insights into top performing Brands for Radial partners. Users will have options to choose between Demand Units, Fulfilled Units & Return units to rank the Brands

KPI's measured: Top performing Brands by unit count, Bottom performing Brands by unit count

Show relevant financial details of these brands

- Order Date
- Client Name
- Seller Name
- Currency

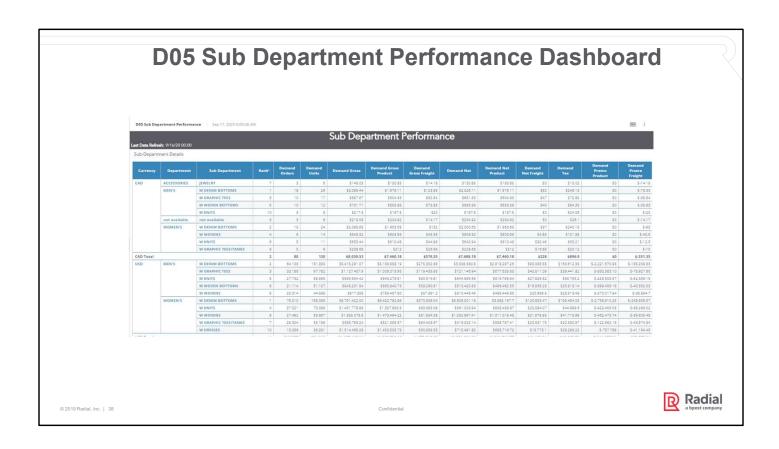

Purpose: Goal of this dashboard has been to provide insights into top performing Styles for Radial partners. Users will have options to choose between Demand Units, Fulfilled Units & Return units to rank the Styles

KPI's measured: Top performing Styles by unit count, Bottom performing Styles by unit count

Show relevant financial details of these styles

- Order Date
- Client Name
- Seller Name
- Currency

Purpose: Goal of this dashboard is to provide top performing SKU sub-departments for a selected date range based on demand units
